Art Unit: 2881

DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-11 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- 3. With respect to independent claim 1, prior art fails to disclose a time-of-flight (TOF) system integrated onto a single chip for measuring precise time intervals, the system comprising: a first constant fraction discriminator for receiving an analog start signal input and providing a digital output representative of the start signal; a second constant fraction discriminator for receiving an analog stop signal input and providing a digital output representative of the stop signal; a logic circuit coupled with the first and second constant fraction discriminators for determining a time interval between the start and stop signals; and a time-to-digital converter (TDC) receiving as input the time interval signal between the start and stop signals, the time-to-digital converter for digitizing the time interval with reference to an off-chip precise reference clock.

Claims 2-11 are allowed by virtue of their dependencies on the independent claim 1.

Conclusion

4. Green discloses (US 2005/0061968 A1) a method of determining the arrival time of one or more ions at an ion detector of a time-of-flight mass spectrometer using a digital-to-time converter.

Application/Control Number: 10/511,069

Art Unit: 2881

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact Electronic Business Center (EBC) at 866-217-9197 (toll-free).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zia Hashmi whose telephone number is (571) 272-2473. The examiner can normally be reached between 8.30 AM- 5 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John R. Lee can be reached on (571) 272-2477.
